HABS / HAER / HALS

Computer Skills Background and Experience Inquiry Form

In order to allow HABS/HAER/HALS to select qualified and skilled CAD field teams, please answer the following questions. Applicants without CAD skills will be considered for hand-drawing projects.

Name: _____ SSN: _____

Address: _____ Phone: _____

_____ Email: _____

_____

1. List any college courses, or other training or seminars, which you have successfully completed for CAD instructional purposes. Note the level of the course and which software (including the version) was used.

2. Describe any work experience which has involved the use of CAD. Note the length of time which you were employed using CAD and which software (including the version) was used.

3. Provide a general assessment of your CAD abilities, including 3-d drafting ability.

4. List any other software (operating system, word processing, spreadsheet, etc) with which you are proficient.

Please include large scale, hard copy examples of your CAD work in your work sample submission, if applicable. Label them as CAD drawings and provide a description of the project. Do not send digital files.
